Enrique Granados
Goyescas
Emili Brugalla

ARS38629	1 CD

With this recording, pianist Emili Brugalla wants to provide a deeper understanding of the Goyescas, away from common images of Spain such as folklore or bullfights. The diverse Spain was the inspiration for brilliant artists like the painter Francisco Goya and the composer Enrique Granados. It is this impressive mix of tradition and modernity that fascinates Brugalla so much.
